

## ANZA Netball Haze Policy

ANZA Netball align with the guidelines and policies set out by ANZA. Decisions about games and training sessions will be based primarily on the NEA's **South-zone 1-hr PM<sub>2.5</sub> reading**. **If the 1-hr PM<sub>2.5</sub> rises above 55, games and training sessions outside will be cancelled or moved inside following the procedures below.**

The Netball Committee will check the **1-hr PM<sub>2.5</sub>** at 7:00am for Session 1 and again at 8:30am for Session 2. Any cancellations made at the stated times will be communicated via TeamApp. If training goes ahead but conditions on the ground deteriorate, the Head Coach will modify, cancel or move training. This decision can be made without regard to advertised PSI and PM<sub>2.5</sub> readings. Any cancellations made on the ground will be communicated directly to players/parents there.

Decisions will be made based on the following;

- Judgment of conditions
- Trend in the 1 hour PM<sub>5</sub> readings
- Nature of activity

<https://www.haze.gov.sg/resources/1-hr-pm2.5-readings>

Time	1-h PM <sub>2.5</sub> Reading	Action
7:00am 8:30am	56 or above	Sessions taking place on the Training Ground will be cancelled or moved inside.
7:00am 8:30am	250 or above	Conditions will be assessed and if deemed unsafe then all indoor training will be cancelled.
